FAST NUCES   📅 08/2020 - 06/2024   📍 Lahore, PK

A'Levels

The Lahore Alma   📅 08/2015 - 06/2018   📍 Lahore, PK

AWARDS

🏅 **Winner NasCon '24**
I built an expense tracker equipped with payment gateways and map integration.

🏅 **Runner's Up NasCon '23**
I built a renting application on Flutter and Firebase, which was ranked 2nd among 28 teams.

PROJECTS

Shift

🔗 play.google.com/store/apps/details?id=com.shift.app.prod
Designed an MVP for an AI chat app within one month. I was also tasked with redesigning the application later and improving the backend operations.

Wallet Wise

🔗 github.com/Arhamss/wallet-wise
Developed an expense tracking application that used a payment gateway, map integration, and push notifications. The application was developed in under 9 hours and won me the best developer award among 40 candidates.

SignSense

🔗 github.com/Arhamss/signsense
Developed a mobile chat application as my FYP with integrated support for sign language users. The app converted sign language to text, text to sign language, American Sign Language (ASL) to Pakistani Sign Language and vice versa. It was built using Flutter and Node.js

Mazloom

🔗 github.com/Arhamss/mazloom
Developed a LMS for my university on Flutter and Firebase. The application involved API integrations and push notifications and was well-received by my instructors.
